

Team Mentors-

The COVID-19 (corona virus) situation has resulted in FIRST making several changes to events.

1. If you haven't seen it, FIRST is making frequent COVID related event updates on this web page: <https://www.firstinspires.org/covid-19>
2. FIRST is recommending that events discontinue supplying, cleaning, and re-use of safety glasses. Everyone must bring their own. This means that your team must be responsible for supplying safety glasses not only for each team member and mentor, but also for any parents, and other visitor's accompanying your team. Do not plan on getting safety glasses at the event from the usual supply at the pit entrance. If you don't have your own safety glasses, you will not be going into the pit area.
3. Bring hand sanitizer for you pit
4. Other common-sense changes, such as substituting non-contacting greetings like a thumbs up instead of high fives and hand shaking, will be announced at the event.

Let me know if you have any questions.

Best regards,

Tim Koch
Central Illinois Regional Planning Committee Chairman
